CAREER OBJECTIVE

Enthusiastic Diploma of Web Development student with a strong focus on front-end design and development. Skilled in creating responsive, user-friendly websites and eager to apply my skills in a junior developer role while continuing to grow through real world experience.

PROJECT & EXPERIENCE

Hatch Café Website (Ongoing Client Project, 2025 – Present)
- Designed and developed a responsive café website with custom sliders and animations.
- Continuing maintenance, including SEO improvements, content updates, and bug fixes.

SoSo Studio (Ongoing Client Project, 2025 - Present)
- Built a rug design website with an interactive custom rug feature, allowing users to submit designs and requests.
- Implemented gallery and product display for showcasing rug collections.
- Contributed to design and branding as part of a 4 person development team.

George Garden Centre Website (Class Project, 2025)
- Multi-page garden website with carousel, contact form, video embeds, and product gallery.
- Designed mobile first for responsive usability.

ACHIEVEMENTS

- Successfully deployed multiple client and student projects to live hosting platforms (GoDaddy, Hostinger).
- Received consistently positive client feedback for usability, responsive design, and modern layouts.
- Demonstrated strong teamwork and communication skills through collaborative client projects.
- Gained hands on experience with Git/GitHub for version control and collaborative workflows.
